- Module 08: Impersonation and Potato attacks
- Module 09: Getsystem
- Module 10: Runas
- Module 11: Registry
- Module 12: Executables Files
- Module 13: Startup Applications
- Module 14: DLL Hijacking
- Module 15: Service Permissions (paths)
- Module 16: CVE 2019 - 1388
- Module 17: Challenge

Appreciation from Defence Sector

About the Course

PRIVILEGE ESCALATION (WINDOWS BASED) COURSE

At CyberYaan Training Institute in Delhi, we offer a Privilege Escalation (Windows Based) Course designed for individuals aiming to build a career in cybersecurity and ethical hacking. This program at CyberYaan provides practical knowledge of identifying and exploiting privilege escalation vulnerabilities in Windows systems. Participants will engage in key topics including Windows internals, misconfigurations, credential exploitation, post-exploitation techniques, and security best practices.
